METRO TAC AGENDA
(Technical Advisory Committee to Metro JPA/Commission)

TO: MetroTAC Representatives

CC: Metro JPA Directors (for information only)

DATE: June 17, 2026

TIME: 11:00 a.m. to 1:30 p.m.

LOCATION: Metro TAC is holding its June meeting via Zoom. An e-mail containing information on how to participate in the meeting will be distributed to the Metro TAC members e-mail list consisting of the appointed Primary and Alternate for the Participating Agency and **approved** San Diego City Staff. Please remember, MetroTAC is NOT a public meeting so please do not distribute the meeting link.

---

1. **ACTION**: Review and Approve Metro TAC Action Minutes for the Meeting of May 20, 2026 (**Attachment**)

2. **INFORMATION/DISCUSSION:** PA Industrial Waste Control Ordinance Implementation – Questions & Answers (Joy Newman)

3. **INFORMATION/DISCUSSION:** FAB and FY 2027 Billing (Adam Jones)

   a. FAB Tables A-B (**Attachment forthcoming**)

4. **INFORMATION/DISCUSSION:** Overview of FY 2027 (Adam Jones)

   a. I&I Workgroup Progress
      - Testing Locations and Number of Test Sites
   b. Future Administrative Agreements
   c. Identification of Notified Parties (**Attachment**)

5. **INFORMATION/DISCUSSION:** Muni Transportation Agreements (Adam Jones)

6. **UPDATE:** Metro Wastewater (General) (Standing Item) (Lisa Celeya)

7. **UPDATE:** Pure Water Program Update (Standing Item) (Doug Owen/Ben Kuhnel/Doug Campbell)

8. **UPDATE:** Metro Wastewater Financial (Standing Item) (Adam Jones)

9. **UPDATE:** SARA Update Report (Standing Item) (Blake Behringer/Karyn Keze)

10. **UPDATE:** JPA Executive Director (Standing Item) (Karyn Keze) **(Attachment)**

11. **UPDATE**: Metro Commission/JPA Board Meeting Recap (Standing Item) (Blake Behringer)

12. Review of Items to be Brought Forward to the Regular Metro Commission/Metro JPA Meeting (**August 6, 2026**)

13. Other Business of Metro TAC

14. Adjournment (To the next Regular Meeting **July 15, 2026**)

Metro TAC 2026 Meeting Schedule

January 21	May 20	September 16
February 18	June 17	October 21
March 18	July 15	November 18
April 15	August 19	December 16

Metro TAC
(Technical Advisory Committee to Metro JPA/Commission)

ACTION MINUTES

DATE OF MEETING: May 20, 2026

TIME: 11:00 AM

LOCATION: ZOOM Meeting

Metro TAC Chair Behringer called the meeting to order at 11:03 a.m.

MEETING ATTENDANCE:

Members Present
Michael Benoza, Chula Vista
Leon Firsht, Coronado (absent)
Joe Bride, Del Mar (absent)
Blake Behringer, El Cajon, Metro TAC Chair
Juan Larios, Imperial Beach
Joe Kuhn, La Mesa, Metro TAC Vice Chair
Izzy Murguia, Lemon Grove
Carmen Kasner, National City
Beth Gentry, Otay WD
Peejay Tubongbanua, Padre Dam MWD
Paul Clarke, Padre Dam MWD
Carlos Cortes, Poway
Sumedh Bahl, County of San Diego

San Diego City Staff/Consultants
Lisa Celaya, City of San Diego
Doug Campbell, City of San Diego
Adam Jones, City of San Diego
Christine Gauger, City of San Diego
Edgar Patino, City of San Diego
Tim Carroll, City of San Diego
Yajaira Gharst, City of San Diego
Joy Newman, City of San Diego

Ben Kunhel, City of San Diego/Stantec

JPA Staff/Consultants Present
Karyn Keze, JPA Executive Director, Keze Group
Kathleen Noel, Dexter Wilson Engineering
Dexter Wilson, Dexter Wilson Engineering
Lee Ann Jones-Santos, Metro JPA Assistant Treasurer
Lori Anne Peoples, Board Secretary

1. **ACTION**: **Review and Approve MetroTAC Action Minutes for the Meeting of April 15, 2026**

   ACTION: Motion by Joe Kuhn, seconded by Sumedh Bahl, the minutes be approved. Motion carried unanimously.

It was noted that the copy distributed to TAC members had a typo in the paragraph stating the month being held was April, however, the posted agenda was correct.

2. **ACTION: Consideration and Possible Action to Recommend Approval to the Metro Wastewater JPA/Commission of a Contract with Rotork Controls, Inc. to Provide As-Needed Technical Services, Repairs and Parts at Public Utilities Facilities**

Tim Carroll, City of San Diego provided a brief verbal overview of his presentation, included in the agenda package.

ACTION: Motion by Carmen Kasner, seconded by Sumedh Bahl, to recommend approval to the Metro JPA/Commission. Motion carried unanimously.

3, **INFORMATION: Quarterly Treasurer's Report FY 2026 - Quarter 3 - Ending March 31, 2026**

Executive Director Karyn Keze introduced the item. Lee Ann Jones-Santos, Metro JPA Assistant Treasure, provided a brief overview of her report included in the agenda package.

4. **UPDATE: Metro Wastewater (General) (Standing Item)**

Lisa Celaya, City of San Diego stated that in case the members had not heard, Juan Guerrero was leaving Metro and adventuring into the consulting world. On June 2nd she will be named Interim Director, holding that position during the time the City conducts internal recruitment, of which she will be applying.

5. **UPDATE: Pure Water Program Update (Standing Item)**
a. Quarterly Update

Ben Kuhnel, Stantec/City of San Diego provided a brief verbal overview of his Pure Water Construction Cost Quarterly Update spread sheet included in the agenda packet. He noted that while the program overall stands at 87% complete, change orders totaling $1.35 mission at the water reclamation plant and additional costs at other project sites remain under negotiation between the city and contractors.

6. **UPDATE: Metro Wastewater Financial (Standing Item) (Adam Jones)**
a. FY 2027 Metro Budget and Cost Allocation

Adam Jones, City of San Diego, provided an update on the pending audits. He reported that MGO had requested additional information related to FY 2023 and that, upon receipt of the final draft letter, staff would process reconciliation payments to the Participating Agencies. Depending on the timing of the final letter, staff may seek approval at the next available JPA meeting in order to expedite the reconciliation process.

Mr. Jones then presented the City's proposed Interim Billing Plan, which is intended to serve as a bridge between the current Strength-Based Billing (SBB) methodology and full implementation of Functional Allocated Billing (FAB). The proposal gradually introduces additional fixed-cost recovery associated with new wastewater infrastructure while maintaining the existing billing framework. Projected impacts to Participating Agencies through FY 2029 were reviewed.

Executive Director Keze explained that the interim billing proposal is being driven by concerns raised by the City's bond rating agencies regarding the low percentage of fixed-cost recovery within the current rate structure. She noted that failure to address these concerns could result in significant additional borrowing costs over time.

TAC members discussed the proposed billing approach, including implementation timing, projected impacts to individual agencies, and the relationship between the interim model and future FAB implementation. City staff explained that the interim billing structure could be implemented under the City's existing authority and would take effect regardless of the status of SARA approval. Staff further clarified that if SARA is approved and FAB is implemented, full FAB rates would become effective July 1, 2027.

Questions were raised regarding the underlying calculations and supporting documentation. City staff agreed to provide additional information and guided reviews of the model. TAC members also discussed the need for sufficient notice to agencies to accommodate local budgeting and billing processes.

Staff reviewed projected financial impacts for FY 2028 and FY 2029 and discussed how changes in flows, capacity allocations, and fixed-cost recovery would affect individual agency billings. Several clarifications were requested regarding presentation graphics and billing tables, including separate identification of Pure Water Program costs where feasible.

Copies of the presentation materials will be provided to Board Secretary Peoples for distribution to TAC members.

7. **UPDATE: SARA Update Report**

Executive Director Keze provided a brief verbal SARA update noting that all agencies except one had approved SARA and Administrative Agreement 1. The JPA board had held a closed session discussion regarding the next steps. Technical and operational issues have largely been resolved. The process has now evolved from staff level development and technical review to broader policy and implementation discussions at the board level.

Further, TAC has done everything that they were asked to do over the last 5 years. They, along with the Executive Team, have worked through technical issues,

developed the framework and provided recommendations that were incorporated into the final SARA and Administrative Agreement 1. The remaining discussions are largely centered on governance, implementation and how best to move the region forward. The Executive Team continues to work collaboratively with the City and the Board on implementation approaches and potential paths as our goal remains the same, to provide a framework that supports regional reliability, fairness and long-term certainty for all participating agencies and have it implemented by July 1, 2026.

The next discussions will happen at the JPA meeting of June 4th in open or closed session and a Special Meeting of the Board will potentially be held at the end of June and the Board has been polled for availability.

8. **JPA Executive Director (Standing Item)**

Executive Director Keze noted that her report was attached to the agenda, and about the only other thing of interest to TAC would be that the Executive Director position was moving forward and that the JPA Board had held a formal interview with Roberto Yano who was the top candidate at their last meeting. His contract will be moving forward as an early item on the June 4 agenda as an action item.

9. **UPDATE: Metro Commission/JPA Board Meeting Recap (Standing Item)**

Metro TAC Chair Behringer stated that the items TAC had reviewed went forward and were approved by the JPA. Additionally the tour taken primarily by TAC members of the NCPW Treatment Plant was very informative and appreciated by all attendees. He noted that it was starting to look like a real facility with hardscape down.

Executive Director Keze thanked Doug Campbell, City of San Diego, for once again leading a wonderful tour.

10. **Review of Items to be Brought Forward to the Regular Metro JPA /Commission Meeting on (June 4, 2026)**

Item 2 and the standard updates will move forward.

11. **Other Business of Metro TAC**

There was none.

12. **Adjournment to the next Regular Meeting (June 17, 2026)**

There being no further business, Chair Behringer adjourned the meeting at 12:38 p.m.

Monthly Executive Director's Report
May 2026

The purpose of this report is to provide an update on the activities, progress, and outcomes related to the JPA's initiatives. It aims to ensure transparency, document key discussions and decisions, and keep all stakeholders informed of ongoing efforts and upcoming milestones.

Directors and TAC Members toured the North City Water Reclamation Plant Pure Water facilities following the May Board Meeting. The tour provided participants with a firsthand look at one of the region's most significant water infrastructure investments and the substantial progress being made toward project completion. Special thanks to Doug Campbell and the City of San Diego staff who coordinated and led this informative and meaningful tour. The overall Pure Water Program is now approaching 90% overall completion, with several facilities already entering startup, commissioning and testing phases as the program moves closer to full operation.

.

Three major projects occupied the Executive Team and Board Committees in May: the implementation of the Second Amended and Restated Agreement (SARA), the final development and review of the FY 2027 Metro Billings, and the Website Update Project. Together, these initiatives represent important milestones in the JPA's ongoing efforts to modernize its governance framework, improve communication and accessibility, and provide Participating Agencies with the tools and information necessary to support informed regional decision-making. Considerable progress was achieved during the month as these projects moved from development into implementation.

Key Tasks and Updates:

1. **Progress Toward SARA Implementation**

   Progress toward implementation of the Second Amended and Restated Agreement (SARA) and Administrative Agreement No. 1 remained a primary focus during May. Efforts centered on maintaining momentum toward a July 1, 2026, implementation date, reviewing proposed revisions, and coordinating the administrative and legal actions necessary to support a smooth transition to the new framework.

   To support these efforts, the Pure Water (SARA) Ad Hoc Committee met twice during the month to review proposed revisions to SARA and evaluate options for moving the agreement forward. Following extensive review and discussion, the Ad Hoc Committee unanimously recommended a series of actions for consideration by the JPA/Commission at its June meeting. The recommendations are intended to support regional coordination, provide a clear path toward implementation, and address the administrative and regulatory requirements associated with SARA and Administrative Agreement No. 1.

   The ongoing implementation effort reflects several years of collaboration among the Participating Agencies, the City of San Diego, and the JPA. Throughout May, discussions remained focused on achieving a successful transition to the new agreement framework while continuing to work collaboratively toward final regional consensus.

2. **FY 2027 Metro Billing Transition Planning**

At the May Technical Advisory Committee (TAC) meeting, the City of San Diego presented the proposed FY 2027 Interim Billing methodology. The proposal is intended to serve as a temporary bridge between the current 1998 strength-based billing system and the Functional Allocation Billing (FAB) methodology developed through the SARA process. The City emphasized that if SARA and FAB are implemented effective July 1, 2026, the Interim Billing methodology would not be used.

The city noted that the current billing system no longer fully reflects modern Metro System operations, infrastructure, and cost drivers. In addition, a recent negative watch issued by one of the wastewater system's rating agencies highlighted the importance of increasing revenue stability through a greater fixed-cost component in the Metro billing structure to provide additional assurance to bondholders. In response, the City has evaluated billing changes that can be implemented within its existing authority while SARA implementation remains pending.

The proposed Interim Billing methodology would gradually increase fixed-cost recovery while maintaining the majority of operations and maintenance costs as variable charges. The city described the proposal as a limited and measured step toward the principles embodied in FAB and emphasized that it is intended only as an interim solution until full FAB implementation can occur. A copy of the City's presentation can be found on the JPA's website attached to the May 20, 2026, agenda as Item 6(a).

3. **Website Update Project:**

Significant progress was made on the Website Update Project during May. A comprehensive review of the draft website, including all navigation structures, content areas, document libraries, and resources, was completed. More than ten pages of comments and recommendations were provided to the website consultant, who has subsequently incorporated these revisions along with additional refinements identified through the ongoing review process. A semi-final review is scheduled for early June, after which final comments will be submitted to the developer.

The Website Team anticipates launching the new website in a semi-final form around June 19, 2026, in conjunction with the publication of materials for the June 28 Special JPA/Commission Meeting. The new platform represents a substantial enhancement over the existing website, providing greatly expanded opportunities to organize and share JPA information, documents, programs, historical records, and Board resources.

While the core website will be operational at launch, it is anticipated that an additional four to six months will be required to fully develop and populate the expanded content areas. This next phase will focus on creating new content and resources that will allow the JPA to take full advantage of the website's enhanced capabilities and provide greater value to Board Members, Participating Agencies, and the public.

4. **Executive Director Succession and Recruitment**

   During May, final contract negotiations were completed for the Executive Director position. The proposed agreement reflects the direction provided by the Board and Executive Director Ad Hoc Committee throughout the recruitment and selection process. The contract is scheduled to be presented to the JPA/Commission Board of Directors on June 4, 2026, for final consideration and approval.

5. **FY 2027 JPA Operating Budget**

   The FY 2027 JPA Operating Budget was approved by the Board at its May meeting. The adopted budget totals $867,894, a 4% increase over the FY 2026 adopted budget, and reflects the transition from development to implementation of major regional initiatives, including SARA and Functional Allocation Billing (FAB). Key budget elements include the establishment of a standalone Executive Director position, updated consultant agreements, and new placeholders for insurance and memberships. Consistent with Finance Committee recommendations, available reserves and non-operating revenues will be used to offset the increase, allowing Participating Agency billings to remain unchanged from FY 2026 levels.

   A copy of the FY 2027 Budget and accompanying PowerPoint presentations can be found on the JPA's website under the "News" section on the home page. https://www.metrojpa.org/home

6. **Finance and AdHoc Committee Meetings Update**

   The Finance Committee and all Ad Hoc Committees were dark during May, with the exception of the Pure Water (SARA) Ad Hoc Committee, whose activities are discussed under Item 1, Progress Toward SARA Implementation.

UPCOMING MEETINGS:

Metro TAC:

Regular Meeting:
June 17, 2026
11-1 Via Zoom

Metro JPA/Commission:

Regular Meeting:
June 4, 2026
Noon-2 PM MOC Auditorium
